

Syllabus P1 : Meet Your Instructor

Instructor name: Miriam McGaugh, Ph.D.

Email: miriam.mcgaugh@okstate.edu (<mailto:miriam.mcgaugh@okstate.edu>)

(Please include BAN 5733 in the header of all email communication)

Phone: 405-744-2208

Office Location and Hours: In person - Tuesdays 10:00 pm-11:00 am or by appointment

Instructor bio: Welcome to class, I am happy you are joining me for the summer! Just a little about me - I am a Professor of Professional Practice in Business Analytics. I am the former director of Community Epidemiology and Evaluation at the Oklahoma State Department of Health where I led a team of analysts who focused on community-based public health initiatives. We worked with county health departments across the state on staffing, patient flow, project planning, and analytics. I currently do research on [commercial sexual exploitation/ human trafficking](https://news.okstate.edu/articles/business/2020/tracking-human-traffickers.html) (<https://news.okstate.edu/articles/business/2020/tracking-human-traffickers.html>), communication between parents and adolescents about sex, and infant and early childhood mental health collaborations.

On the personal side, my husband and I have 2 kids, 2 dogs, 2 cats, 4 horses, 5 ducks, to many goats to count and new for the 2026-2027 school year - 3 show lambs for my daughter. It is always loud, crazy, and chaotic at my house and we love it!

Syllabus P2: Course Information and Materials

Course Information

- BAN 5733
 - Online 62497
 - Mondays 9:30 am to 11:20 am CRN 63786 - Room 050
- Fall 2026

Course Site: (Canvas): <http://canvas.okstate.edu>

Canvas Tutorials for Students: <https://osuonline.okstate.edu/Canvas.vbhtml>
(<https://osuonline.okstate.edu/Canvas.vbhtml>)

Course Description

The digital age of business requires an understanding of data. This class will give you the right tools to stay relevant. It also offers the theoretical understanding of data necessary for you to adapt to the many changes in business while also equipping you with the skills you'll need to perform vital daily functions. By the end of the course, you should be able to help a company make data-driven business decisions.

Required Materials

Required Textbook:

1. **Kritik** - An email invitation will be sent to your school email account that contains information on how to register for a Kritik account and enroll in the course. Fee - \$49.00 (from Kritik with credit/debit card only) to \$57.50 (from OSU Bookstore - can be billed to Bursar account).
 - You can read more about Kritik below

Kritik

This term, we will be using Kritik (www.kritik.io (<http://www.kritik.io/>)), a peer-to-peer learning and evaluation platform. Kritik puts you, the student, at the center of your learning. Kritik is focused on an important goal: to help you in developing critical thinking

and communication skills, which in turn set you up for success both in and out of the classroom.

Each Kritik activity has 3 unique stages:

Stage 1: Create → Follow the instructions, read the provided rubric and create a submission

Stage 2: Evaluate → Anonymously score your peers based on the rubric, and provide written comments

Stage 3: Feedback → Provide your peer evaluators anonymous feedback in relation to how motivational and critical their written comments were

Grading

When you participate in Kritik activities, you will receive 4 scores: Creation score, Evaluation score, Feedback score, and Overall score. The Creation score will be used as a reference but **your final grade will be assessed by the professor or the TA**. Then your evaluation and feedback scores will be added to the **new** creation score to calculate your Overall score on the assignment.

- Stage 1 Creation Grading:
 - The creation score for each activity is normally the weighted average of how your peers scored your submission.
 - However, **in this class**, your creation score is based on the TA/ Faculty grade.
- Stage 2 Evaluation & Stage 3 Feedback: These are the same as explained by Kritik - https://help.kritik.io/en/articles/6388500-how-scoring-works#h_326ede26e6 → https://help.kritik.io/en/articles/6388500-how-scoring-works#h_326ede26e6
- Your overall combined score (TA/Professor creation score, Evaluation score, & Feedback score) is what is synced to Canvas

Registration/Support

An email invitation will be sent to your **school email account** that contains information on how to register for a Kritik account and enroll in the course. There will be a \$49.00-\$57.50 charge for Kritik depending on purchase process.

How to get help:

If you have any questions about Kritik, please use **their live chat**. A human agent will respond promptly within a few minutes from 9am-5pm eastern time Monday to Friday. Outside of these hours, you'll receive a reply that Kritik will be back the next business day - but don't worry! They monitor around the clock and will still respond to urgent requests within a few hours. You can also visit <https://help.kritik.io> (<https://help.kritik.io/>) to view their help articles.

Syllabus P3: Course Requirements

Course Requirements

This course has multiple components to help students navigate the business communication and research world.

Exercises: There will be assignments that cover the material and require you to think through a story, plan, or program, or interpret the information received from your program. These assignments will reinforce the concepts covered in the lectures and will help you begin to critically think about programming and its uses.

Assignments will be worth 20 points each for a total of 120 points.

Lab Work: The lab class will provide opportunities for students to practice skills learned through lecture videos and the reading materials. Labs will consist of hands-on practice, interactive tasks, and group work.

- In-person sections must attend lab on the designated date and complete at least 10 lab assignments by their due dates.
- Online section must watch one set of lab videos (either Monday or Wednesday) and complete at least 10 lab assignments by their due dates.
 - Students may join the class live by connecting to the Teams call or they may watch the videos asynchronously.
 - Please consult the Teams class calendar or Canvas calendar for connection information.

Analytics Case: In lieu of a midterm exam, an analytics case will be assigned. Students will have one week to analyze the case and put a presentation together.

- Section 62497: Individuals or groups of 3-4 students will record their presentation and submit prior to the deadline for grading - 11/1/2026.
- Sections 63786: Students will be provided additional information on group formation several weeks before the due date. Groups will submit their presentation to Canvas prior to the deadline (10/29/2026) and present to a panel of judges in one of 3 or 4 rooms on October 30, 2026 at the assigned time. Each set of judges will select the top group for a final round the following week, November 6, 2026.

Exam: There will be one exam grade in this course but students have several options to choose from:

1. Canvas Proctored Exam:

The first is a proctored final exam delivered via Canvas. Testing Center fees may apply for proctored exams, with a range of \$6 - \$75, depending on your location. These exams include multiple-choice questions and essay writing. The exam content will be largely based on video lectures, course textbook and readings. The exam will be worth 100 points.

CHOOSE A PROCTOR NOW FOR YOUR EXAM(S)! During the first week of the course, go to the Spears School Greenwood Center for Online Excellence proctor/exam website to choose a testing center (spearsonline.okstate.edu ➞ <https://nam04.safelinks.protection.outlook.com/?url=https%3A%2F%2Fspearsonline.okstate.edu%2F&data=05%7C01%7Ckatrina.ruggs%40okstate.edu%7C63ebdcf73e10424f408808dab861471f%7C2a69c91de8494e34a230cdf8b27e1964%7C0%7C0%7C638025025185574455%7CUnknown%7CTWFpbGZsb3d8eyJWljojMC4wLjAwMDAiLCJQIjoiV2luMzliLCJBTil6lk1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=yj8AdKmWy96c4kTJ8mYGSC3rPV2KCmDrvuezWRCvuyI%3D&reserved=0>). You will need to log in with your OKEY information, and, once logged in, **click on “Select Testing Center” at the top right of the page. You will need to “Edit Testing Center” for each course.** ➞ <https://nam04.safelinks.protection.outlook.com/?url=http%3A%2F%2Fspearsonline.okstate.edu%2F&data=05%7C01%7Ckatrina.ruggs%40okstate.edu%7C63ebdcf73e10424f408808dab861471f%7C2a69c91de8494e34a230cdf8b27e1964%7C0%7C0%7C638025025185574455%7CUnknown%7CTWFpbGZsb3d8eyJWljojMC4wLjAwMDAiLCJQIjoiV2luMzliLCJBTil6lk1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=HOg2GnUPYrIPRB36emuyc1xC%2BMZh%2F%2BsVamE%2Fyi7XwgE%3D&reserved=0> Follow the instructions to identify and select your proctor. The online proctoring service, Meazure Learning/ ProctorU, is an option students can choose if exams are delivered online (through Canvas). If you wish to learn more about Meazure Learning/ ProctorU or decide to choose this option as your testing location, consider learning about **Meazure Learning/ProctorU** ➞ <https://support.proctoru.com/hc/en-us/categories/115001818507> and the necessary **computer applications** ➞ <https://support.proctoru.com/hc/en-us/articles/24692181239309-Equipment-Requirements>) to be able to complete exams successfully. It is very important to take note of the technologies that are **NOT** supported using the Meazure Learning/ProctorU platform. To schedule an appointment with Meazure Learning/ ProctorU, and to access the exams, use click on the link titled “Meazure Learning” located on the left side of the navigation bar in the Canvas course site. Please note that all Meazure Learning/ ProctorU test fees will be charged to your OSU Bursar account. The Spears School of Business no longer supports testing on the Examity platform.

Up to one week before each exam start date, make your appointment directly with your testing center. The instructor nor the Greenwood Center for Online Excellence can schedule exam appointments. The exam and/or exam instructions will be sent to your testing center from the Greenwood Center 4 days prior to the exam start date. To confirm your testing center received the exam/exam information, call your testing center at least one day prior to your appointment time. If the proctor does not have your exam/exam information, contact the Greenwood Center for Online Excellence immediately at spearsonline@okstate.edu (<mailto:spearsonline@okstate.edu>), or call (405) 744-4048 to request the information be sent. Contact that same office if you have any questions regarding the testing center sign up process. You may also visit <https://business.okstate.edu/online/guide/proctor-policies.html>  (<https://nam04.safelinks.protection.outlook.com/?url=https%3A%2F%2Fbusiness.okstate.edu%2Fonline%2Fguide%2Fproctor-policies.html&data=05%7C01%7Ckatrina.ruggs%40okstate.edu%7C63ebdcf73e10424f408808dab861471f%7C2a69c91de8494e34a230cdf8b27e1964%7C0%7C0%7C638025025185574455%7CUnknown%7CTWfpbGZsb3d8eyJWljoiMC4wLjAwMDAiLCJQIjoiV2luMzliLCJBTil6lk1haWwiLCJXVCi6Mn0%3D%7C3000%7C%7C%7C&sdata=cel0GB82wvvqdGN3jqJJ8DFisQ3n9ikyPdsVvkqIPZI4%3D&reserved=0>).

2. SAS® Visual Business Analytics Specialist:

A SAS Certification exam is NOT a requirement of this course. However, if becoming certified fits within your educational and career goals, I do recommend you take the SAS Certified Visual Business Analytics Specialist (A00-470).

For details about this exam, see:

https://www.sas.com/en_us/certification/credentials/bi-analytics/visual-business-analytics.html  (https://www.sas.com/en_us/certification/credentials/bi-analytics/visual-business-analytics.html)

Students receive a special price for certification exams: US\$75 per exam. You can access the discount after registering for SAS Skill Builder for Students. This is approximately half the price of the original exam fees. You can register for SAS Skill Builder for Students and get your voucher by visiting this webpage -

https://www.sas.com/en_us/learn/academic-programs/students.html#discounts  (https://www.sas.com/en_us/learn/academic-programs/students.html#discounts) This must

be done prior to registering for the exam or you will be charged the full \$120-\$180 at registration. The exam fee cannot be charged to your bursar account. You must use a credit or debit card to pay for the exam.

3. PCEP™ – Certified Entry-Level Python Programmer

A Python Certification exam is NOT a requirement of this course.

For details about this exam, see: <https://pythoninstitute.org/pcep> 
(<https://pythoninstitute.org/pcep>)

Fee \$69

The PCEP certification exam (Exam PCEP-30-0x) is a professional credential that measures the candidate's ability to accomplish coding tasks related to the essentials of programming in the Python language. A test candidate should demonstrate sufficient knowledge of the universal concepts of computer programming, the syntax and semantics of the Python language, as well as the skills in resolving typical implementation challenges with the help of the Python Standard Library.

4. PCED – Certified Entry-Level Data Analyst with Python

A Python Certification exam is NOT a requirement of this course.

For details about this exam, see: <https://pythoninstitute.org/pced> 
(<https://pythoninstitute.org/pced>)

Fee \$69

The PCED certification exam (Exam PCED-30-01) is a professional credential that measures a candidate's comprehensive knowledge and skills in foundational data analytics, with a specific focus on Python programming and database management. This certification verifies their proficiency in all aspects of data handling, including acquisition, pre-processing, validation, preparation, analysis, modeling, and visualization.

5. Other certification exam as approved by professor

Syllabus P4: Learning Goals

Student Learning Outcomes

Upon completion of this course, you will be able to:

Program Learning Goal	Course Objective
Technical Competence - Statistics	Students will demonstrate a clear understanding of statistical concepts and techniques, including inferential statistics and statistical modeling methods to analyze data, interpret results, and inform data-driven business decisions.
Professional Communication	Students will be able to effectively communicate complex analytical findings concisely to their audience utilizing appropriate written, visual, and oral presentations to support strategic decision-making.

Secondary Course Objectives

Course Learning Goal	Course Objective
Design and Execute Business Analytics Projects	Students will apply the CRISP-DM framework to define business problems, develop analytic plans, and manage the end-to-end analytics process using appropriate tools and methodologies.

Acquire, Prepare, and Analyze Data	Students will collect, clean, and transform structured and unstructured data; apply descriptive and inferential statistical techniques to explore data patterns and relationships.
Visualize and Communicate Analytical Insights	Students will be able to create effective data visualizations, dashboards, and geographic representations to communicate findings clearly and persuasively to diverse business audiences.
Apply Ethical and Strategic Thinking in Analytics	Students will evaluate ethical considerations, identify potential biases, and apply advanced descriptive techniques (e.g., regression, clustering, spatial analysis) to support data-driven decision-making.

Syllabus P5 : Technology and Software

(<https://pixabay.com/vectors/computer-desktop-workstation-office-158675/>)

Technical Requirements

- Reliable high-speed broadband Internet connection
- Windows 10 or Mac OS Catalina (or higher)
- **Google Chrome** [_\(<https://www.google.com/chrome/>\)](https://www.google.com/chrome/) or **Mozilla Firefox** [_\(<https://www.mozilla.org/en-US/firefox/>\)](https://www.mozilla.org/en-US/firefox/) web browser (click on links to download)
- A computer with a working built in camera and microphone (or external webcam)
- Adobe Acrobat Reader plugin (downloadable free from [adobe.com](http://www.adobe.com) [_\(<http://www.adobe.com>\)](http://www.adobe.com))

Mobile Devices

- The Canvas app: Available for iOS or Android: **Canvas Mobile Guides** [_\(<https://community.canvaslms.com/docs/DOC-4048>\)](https://community.canvaslms.com/docs/DOC-4048)
- If Flash-based content is used in this course, it won't display on Mobile devices, especially iOS devices.
- SAS software will not work well on a mobile device.

Course Software

This course will use a variety of software.

Programming Languages -

- SAS Viya for Learners - Visual Analytics and Studio
- Python
- SQL

Non-programming Software -

- JMP Pro
- Excel
- Tableau or Power BI
- ArcGIS by ESRI

You will not need to use all of these software, but I would suggest focusing your efforts on at least one from each group. Please see the [Software Connection Resource Information \(https://canvas.okstate.edu/courses/231606/pages/software-starter-tutorials-can-be-found-here\)](https://canvas.okstate.edu/courses/231606/pages/software-starter-tutorials-can-be-found-here) page for connection and software information.

Supplemental Software Training Platforms

You will be given access to materials to help those unfamiliar with the systems.

- **Datacamp.com** is the supplemental training platform used for the majority of the software that will be used in the course. Students will be given access to a team within Datacamp with appropriate training courses to support learning.
- **SAS Skill Builder for Students** will be an additional supplemental platform that may be used for this course. You may access this platform by visiting the SAS website at https://www.sas.com/en_us/learn/academic-programs/students.html  (https://www.sas.com/en_us/learn/academic-programs/students.html). Information on specific courses recommended by faculty will be given during the course. This is also the site where students obtain a discount code for SAS Certification Exams.

Syllabus P6: Assignments and Grades

Grading Information

- See tables below for grade distribution
- There will not be any extra credit options for this course
- **Course Schedule**

<https://canvas.okstate.edu/courses/231606/pages/syllabus-p9-course-schedule-revised-8-slash-20-slash-24-2>

- **Attendance, Participation and Late Work**

<https://canvas.okstate.edu/courses/231606/pages/syllabus-p8-attendance-participation-and-late-work-2>

Assignment Group	Points	Percentage of Grade
Exercises	6 exercises X 20 points each = 120	28%
Lab (13 available - 10 required)	10 labs X 10 points each = 100	24%
Analytics Case	100 points	24%
Final Project/ Certification Exam	100 points	24%
Total	420 points	100%

Grading Table

Final Grade	Percentage	Points Range
-------------	------------	--------------

A	89.5-100%	376-420
B	79.5-89.4%	334-375
C	69.5-79.4%	292-333
D	59.5-69.4%	250-291
F	and below	0-249

Syllabus P7: Communication Plan

Main Point of Contact (POC) for this course: Teaching Assistant

Teaching Assistant: Ashlyn Caldwell (acaldwell@okstate.edu (<mailto:acaldwell@okstate.edu>))

How and when to contact:

1. Canvas Discussion - for general questions related to course or materials
2. Email TA - no response from Discussion or personal question
3. Email Dr. McGaugh - no response from TA or issue with TA

Response Times: The TA will respond to student inquiries *within 24 hours during Monday-Friday business hours*. For inquiries *outside business hours on weekdays or during weekends*, TA will respond within 48 hours. If a response is not received within the expected time as mentioned above, please follow-up with the TA with a CC to Dr. McGaugh.

Students will expect grades for assignments to be posted to the Gradebook in Canvas within two weeks of turning in the assignment. Please consider these timelines when you are scheduling your course assignments. While the TA and faculty will do everything to respond in a timely manner, waiting to post a question one hour before the assignment is due will not allow for adequate time for a response.

Please plan accordingly to ensure your assignments are completed and turned in on time.

Syllabus P8: Attendance, Participation, and Late Work

Attendance and Participation

Students who have not participated in at least one assignment in Canvas (lab, Kritik assignment, etc.) within the first two weeks of the course will be reported as not having attended class. If I have not communicated with you at that point, I will recommend you drop the course.

A [\(https://pixabay.com/vectors/classroom-cooperative-learning-1297779/\)](https://pixabay.com/vectors/classroom-cooperative-learning-1297779/) dd/Drop Policy

Information about university drop policy and dates can be found in the course syllabus attachment or at this website: <http://registrar.okstate.edu/> (<http://registrar.okstate.edu/>)

To drop this course, contact the Registrar's office, (405) 744-6876, or drop through Banner Self Service, <http://my.okstate.edu> (<http://my.okstate.edu>)

Late/ Makeup Work

Assignments or peer reviews are considered late if they are not posted by the stated deadline. Late work will not be accepted for projects or exams. For other assignments, a ten percent deduction will be applied for each 24-hour period past the deadline, with no credit given for submissions received more than 48 hours late.

No late work is accepted after Friday of Week 16.

Note: Technological issues are not valid reasons for submitting late work. Students are encouraged to back up their work and have contingency plans in place for potential computer or internet issues.

Request for Extension

Students facing significant life circumstances, such as hospitalization, a family emergency, or other critical situations, may request an extension by contacting the course instructor. An approved extension waives the late penalty and extends the assignment deadline.

To request an extension, students must email their instructor from their university email account, providing:

1. A rationale for the request (explaining why timely submission is not possible);
2. Supporting documentation;
3. A list of the specific assignments for which the extension is requested.

Requests and documentation must be submitted within three weeks of the original due date. Typically, extensions are limited to one week's worth of assignments. The instructor has the final discretion over the approval and conditions of any extension. The instructor will maintain a record of all communication regarding extensions.

For extensive disruptions to studies, students should consult with their academic advisor to determine if submitting an Incomplete Grade Petition is appropriate.

Additional University Policies

Additional student resources including Drop Policy, Diversity & Inclusion, Bursar, Accessibility, etc. are available at <https://academicaffairs.okstate.edu/faculty-development/index.html> (<https://academicaffairs.okstate.edu/faculty-development/index.html>). Look for "Syllabus Attachment."

Generative AI Policy

Students may access and use generative AI tools, such as ChatGPT, Bing AI, or Bard, to assist them in their learning of the course content. Appropriate uses may include generating ideas for writing assignments, checking programming code, checking facts of a phenomenon, and assessing a paper for grammatical errors that are written by the student. Such uses of the tool assist students in learning the content and will therefore be permitted. However, students are prohibited from using generative AI tools to completely produce, reproduce, and/or manufacture paper and/or other assignments without using any personal effort devoted to the learning process. Students are also prohibited from uploading, pasting into an interface, or using an API to load course assignments or other course materials into a generative AI tool. Before using generative AI tools, students should check to ensure they do not conflict with copyright laws or other's proprietary information.

Module	Learning Objective	Week	Week Start Date	Topic	Lab Class	Kritik Assignment	Exercise Due Dates
1	Students will be able to frame business problems, identify stakeholder needs, evaluate ethical considerations, and assess data quality using the CRISP-DM process.	1	17-Aug-26	Intro to Descriptive Analytics; CRISP-DM & Business Framing	- Monday: Interactive; Hands-on exercise due 17-Aug-26 - Online: Hands-on exercise due 24-Aug-26	Calibration Assignment in Kritik - Optional	<i>Creation Due Date: 26-Aug-26</i> <i>Peer Review Due Date: 30-Aug-26</i> <i>Feedback Due Date: 02-Sep-26</i>
		2	24-Aug-26	Data Understanding	- Monday: Interactive; Hands-on exercise due 24-Aug-26 - Online: Hands-on exercise due 31-Aug-26	Assignment 1: Business Framing & Data Understanding	Creation Due Date: 02-Sep-26 Peer Review Due Date: 06-Sep-26 Feedback Due Date: 09-Sep-26
		3	31-Aug-26	Ethics, Bias & Pitfalls & Initial Exploration of Data	- Monday: Interactive; Hands-on exercise due 31-Aug-26 - Online: Hands-on exercise due 07-Sep-26		
		4	7-Sep-26	Descriptive Analysis	No Lab Class - University Holiday	Assignment 2: Exploring and Describing Fitness Engagement Data	Creation Due Date: 16-Sep-26 Peer Review Due Date: 20-Sep-26 Feedback Due Date: 23-Sep-26
		5	14-Sep-26	Data Cleaning & Preparation	- Monday: Interactive; Hands-on exercise due 14-Sep-26 - Online: Hands-on exercise due 21-Sep-26		
2	Students will be able to explore, summarize, visualize, and communicate patterns in data through descriptive analytics techniques, dashboards, and business storytelling.	6	21-Sep-26	Relationship Analysis	- Monday: Interactive; Hands-on exercise due 21-Sep-26 - Online: Hands-on exercise due 28-Sep-26	Assignment 3: Data Cleaning & Bivariate Descriptive Analysis of Fitness Engagement Data	Creation Due Date: 30-Sep-26 Peer Review Due Date: 04-Oct-26 Feedback Due Date: 07-Oct-26
